

Angelica Smiderle (She/Her)

Game Programmer Specializing in Core Gameplay, Automation Tools, and Game AI

EXPERIENCE

Zugalu, Calgary — Unity Developer

August 2023 - Present

- [Thrive: Heavy Lies The Crown](#), City Builder/RTS game set in a fantasy world
- Game to be released for PC on steam
- Created features, tools, fixed bugs
- Helped create a more streamlined process for reporting bugs

Insanity CORR, Whitby — (Contract) Unreal Developer

February 2022 - August 2023

- [Headless JEFF-3](#), second-person perspective puzzle game
- Ubisoft Indie Series Top Four Finalist, Feedback Fest winner
- Created technical documentation, guided others on how to use Unreal
- Focus on code readability and maintainability

The AAD Ltd., London — (Contract) Unity Developer/DevOps

October 2022 - August 2023

- [Cardio Practice](#), mobile puzzle game for Doctors to help learn how to diagnose heart disease
- Published to App store/Play store
- Navigated legacy code and reorganized codebase to be more maintainable and standardized, including splitting modules into assembly definitions
- When adding new features, focused on code readability and maintainability, used functional programming patterns

PROJECTS

[Zero Possession](#) — Combat Programmer, Game Designer

Late March 2022 - Early April 2022

- Unity/C#, 7 person team, started from a game jam
- A fast-paced FPS inspired by Ghostrunner and Mirror's Edge
- Player's Choice and Best Sound winner at Ontario Tech's Gamecon
- Worked on AI systems and Combat systems, filling in the gaps where I'm needed

EDUCATION

Ontario Tech University, Oshawa — Game Development & Entrepreneurship (BIT Hons)

September 2018 - April 2022

- Learned AGILE, software design patterns, game programming patterns, team skills, Vice President of Game Programming Club
- Created several games to gain real-world experience with a team of 7+

Barrie, L4N 5X2

(705) 794 8372
